Lesson Manager – Our in-lesson web app for marking registers and syllabus

As with all of our software products, Lesson Manager is regularly reviewed and enhanced to ensure we are offering the most relevant and useful product possible! Teachers are able to mark attendance and syllabus in just a few screen taps, without having to detract from the lesson in progress. Photography permissions, whether clients payments are up to date, health issues, notes and if it is their birthday can all be seen at a glance, ensuring your instructors have all of the information they require to complete their lesson.

Lesson Manager is fully GDPR compliant and in line with industry best practice. To find out more, please read our blog post [Lesson-Manager-Blog.pdf](#), the STA Best Practice document [Use of Tablets and Electronic Devices During Swimming Lessons – STA.co.uk](#) or get in touch!

Drowning Prevention Week - 18th-25th June

The RLSS's will be running their annual campaign next month, and providing lots of great resources to help you to educate your swimmers about the risks and potential dangers of not just being in the water but also being near it.

We were quite taken aback when looking at the WAID (Water Incident Database) at the 2021 statistics to see that almost half of the accidental drownings recorded within the UK were of people who had no intention to enter the water! Out of 277 accidental drownings recorded, 5 were people out cycling, 2 climbers, 6 people in motor vehicles and a massive 96 people who were out for a walk or a run!

With more heatwaves predicted and the summer holidays fast approaching there is no better time than to make sure our swimmers are reminded of the precautions they should be taking, and what to do should they find themselves in trouble.

You can learn more about Drowning Prevention Week, how to take part, and find the amazing FREE water safety resources here: [Drowning Prevention Week | Royal Life Saving Society UK](#)

Office Closures

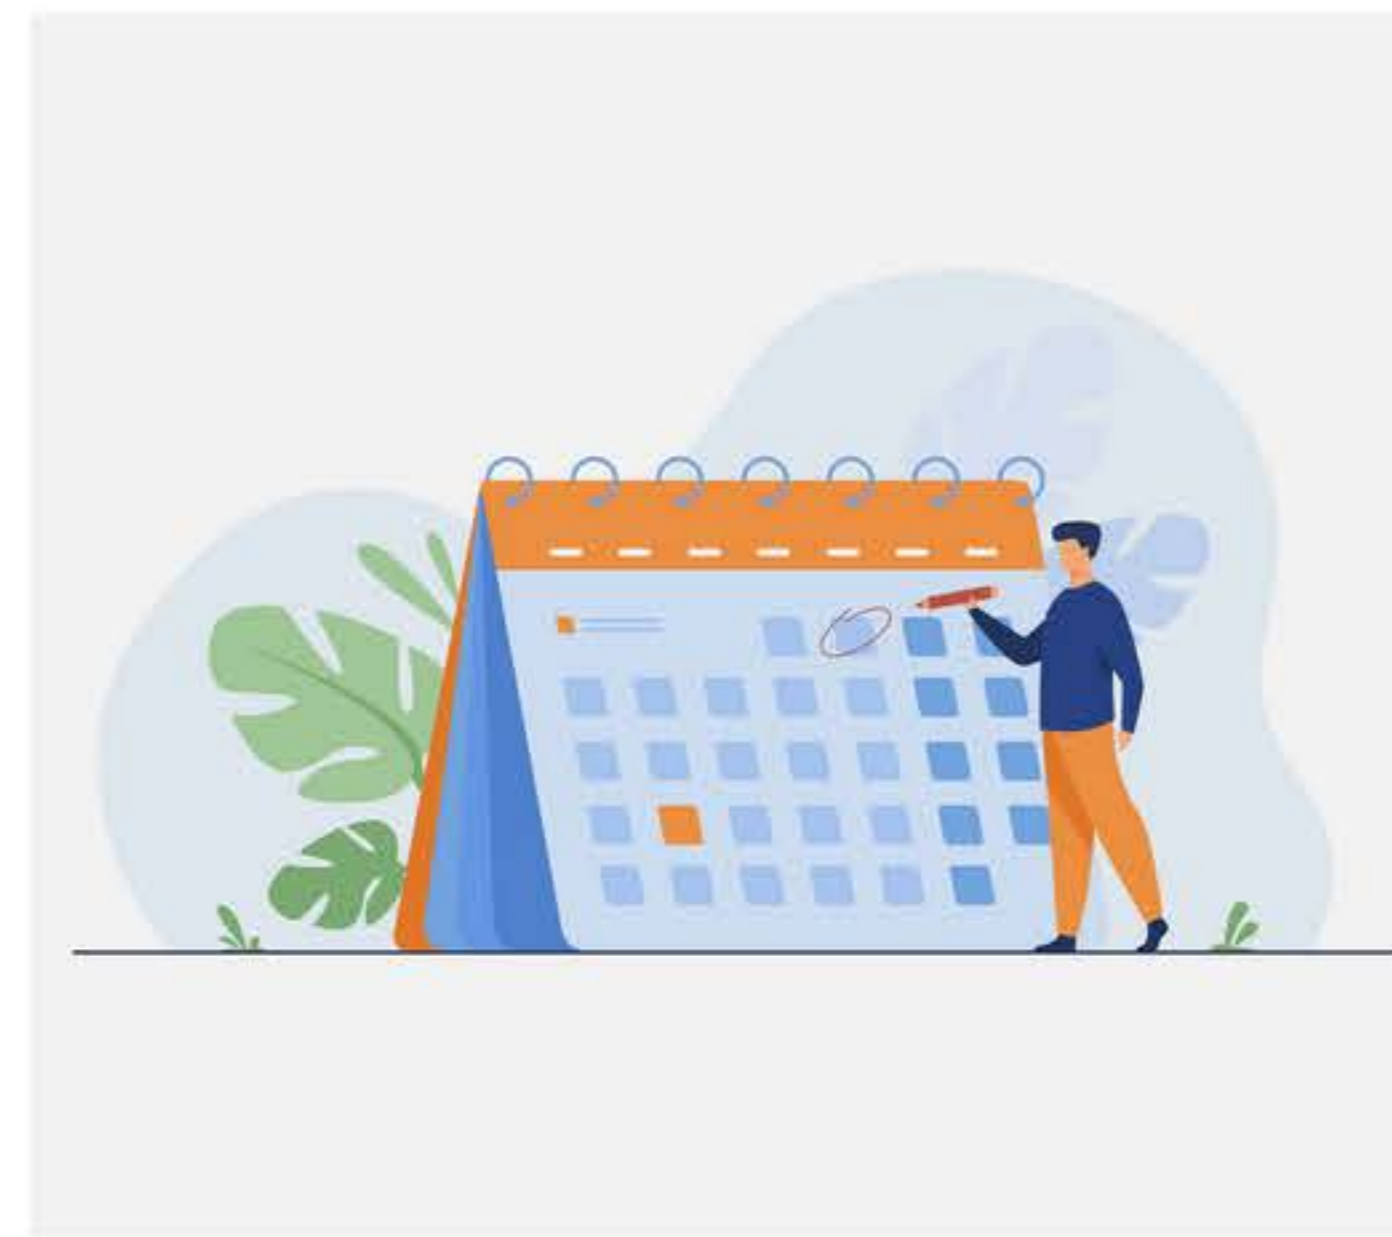

The MOR Solutions Office will be closed on the bank holidays on Thursday 2nd and Friday 3rd June. If, as an existing client, you require urgent help during this period, please email the support team.

The MOR Solutions Team will be out of the office for the day on Wednesday 15th June for some Team Building. Emails will be checked sporadically during the day, as and when we are able to access them.

The Queen's Platinum Jubilee

We have seen some great plans for Jubilee themed swimming lessons on some of your social media! And some great ways of incorporating commemorating the event into your teaching! If you are looking for some ideas, STA members can download their "Tea-Party In The Pool" themed activities pack, including a very special certificate. More generically, there are themed game ideas and resources on [The Platinum Jubilee](#) – and [Resources for the Platinum Jubilee | The Royal Family](#).

Getting back to normal

We have been so pleased to see most of the events we would usually attend returned to face to face events, and that they are not remaining virtual or online! We cannot wait to get back out to conferences and shows and see your faces again!!
